

**REMARKS**

Entry of the foregoing in light of the following remarks, pursuant to and consistent with 37 C.F.R. § 1.312, are respectfully requested.

By the present amendment, claims 69, 72, 74-77, 80-81 and 91 have been amended. More specifically, claims 69 and 91 have been amended to recite "cancer of the cervix" so as to be consistent with the language of, for instance, claims 58, 74 and 80. Claims 72 and 75-77 have been amended to correct an obvious and inadvertent typographical error in recitation of "immunogenic." It is noted, with regard to claim 72, that the Examiner's Amendment correctly recites the term "immunogenic." However, since the Examiner's Amendment does not show deletion of the improperly spelled term from the previous listing of the claims nor insertion of the properly spelled term, applicants hereby request that correction to the spelling of the term "immunogenic" in claim 72 be corrected. Finally, claims 74-77 and 80-81 have been amended to insert a comma after recitation of the claim dependency so as to be consistent in format with the other dependent claims.

No new matter has been added by the present amendment. Furthermore, no additional search or examination is required by the present amendment because such amendments merely embody correction of formal (typographical or grammatical) matters in the claims without changing the scope thereof.

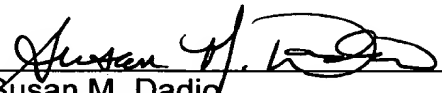

In the event that there are any questions relating to this Amendment After Allowance Under 37 C.F.R. § 1.312, or the application in general, it would be

appreciated if the Examiner would telephone the undersigned concerning such questions so that issuance of this application may be expedited.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
